Features

Do you want to quickly change your favorite places - garden, terrace or balcony, so that they take on an original and distinctive character? Bet on the PATIO gas heater! It is not only a unique decoration, but also a source of heat that can create a unique atmosphere!

EXCEPTION

Especially for the most demanding ones we have created a unique garden lamp. PATIO attracts attention with its minimalism and exceptional attention to every detail, and a beautiful vision of fire will delight everyone. The lower part of the housing is finished with the highest quality quartz sinter - a definite hit of recent months in interior, terrace and garden design. The whole definitely goes beyond any schemes.

PATIO will make your garden, terrace or balcony unique. Everyone who visits you will be enchanted by the beauty and warmth coming from PATIO! Your beloved places will become an object of envy!

COMFORT OF USE

Fire in a second? In PATIO it's possible! It only takes one click to enjoy the warmth and view of fire. What's important is that you can regulate and extinguish the flame at any time. All control is done with the intuitive remote control.

The PATIO is practically maintenance-free - all you have to do is set it in the chosen place. And it's very simple, thanks to the wheels. You can also forget about glass cleaning - the fire won't smoke them, so you'll always enjoy an undisturbed vision of fire.

The quartz sinter plates used at the bottom of the housing are also easy to use. They are very hard, strong, resistant to all stains, impacts, abrasion and scratches.

ECONOMICAL AND ENVIRONMENTALLY FRIENDLY

We're all about ecology! By buying our heater you care about the environment. You do not contribute to smog. The device burns clean fuel - gas from the cylinder (propane-butane or pure propane).

We also take care of your money. PATIO is extremely economical - it can work at full power, continuously for up to 30 hours.

100% SAFETY

Trust us, like more than 1,000,000 other users around the world! Bet on a proven manufacturer with

over 20 years of experience. Don't be fooled by unknown companies...

Innovative solutions and strict quality control make PATIO and I give you what is most important in life - peace and security. A tilt valve, thermocouple sensor or a specially designed controller ensure failure-free operation. You, in turn, do not worry about anything...

ATTENTION!

The PATIO gas heater is available in several colour versions of quartz sinters. The full colour palette is available in the sampler in the "Downloads" section. We encourage you to familiarize yourself with it.

After choosing a colour version, please contact us by e-mail at detal@kratki.com. Please enter the name of the colour in the message.
